Central Foundation Provides Clothing Closet At Steinbeck Elementary

The Foundation For Central Schools announces the grand opening of the 3rd District Clothing Closet on March 17th at Steinbeck Elementary. Thanks to fundraising efforts through the Granville Home of Hope and support from the Assistance League of Fresno, access to school clothes, hygiene products, shoes and backpacks are available. The closet's daily operation will be run by Reading Intervention Teacher Danielle Uribe, student council and student peer counselors. Steinbeck students will have immediate access to the closet during regular school hours. Plus, students district-wide have access to the closets by placing a request with a school admin, liaison or by visiting the centralfoundation.org website.

The District wide clothing closets are part of the Warm For Winter initiatives and The Well-being Project provided by The Foundation For Central Schools. These projects support resources to help students thrive inside and outside the classroom. Including resources for food, health, and housing. Central Unified families and community members can learn more by visiting centralfoundation.org for more information.
